## The UCGEC Smart/Green/Happy Cities Conference 2019 September 16, 2019 1PM-7PM

This 2019 Silicon Valley US-China Smart, Green, Happy Cities Conference will build on wonderful insights learned at our 10th Anniversary Summit in August 2018 and subsequent Conferences. We will explore multiple dimensions of smart, green, happy City projects in Silicon Valley and China. We have invited a new set of experts to join and formally share their experiences, lessons learned and insights. We invite you to join this event, learn, share your own experiences and ask questions.

The Santa Clara County supervisors unanimously declared a climate emergency -- in advance of the nation-wide Youth Climate Strikes in late September. San Jose is in initial stages of doing the same. This provides a new frame of reference for this conference. New momentum across sectors will fuel new implications, new directions, and new insights for all participants.

Change-makers need to generate partners in government, industry, and their communities to lead the transition to a cleaner, greener, and healthier future. And we can all learn to do this better!

Date: Monday, September 16th, 2019

Time: 1:00 pm to 1:30 pm – Registration  
1:30 pm to 6:30 pm – Conference  
6:30 pm to 7:00 pm – Reception and Networking
